Lógica, ciencia y creatividad (Spanish Edition)

Carlos Alberto Blanco Pérez

Lógica, ciencia y creatividad (Spanish Edition) Carlos Alberto Blanco Pérez
En Lógica, Ciencia y Creatividad, Carlos Blanco conjuga datos de la teoría de la evolución y de la neurociencia contemporánea para articular una reflexión filosófica sobre el concepto de creatividad. El problema de cómo encontrar una noción satisfactoria de “creatividad” le lleva también a plantearse preguntas sobre la naturaleza de la inteligencia, el proceso inventivo de grandes genios como Descartes y Leibniz, la posibilidad de ampliar nuestra lógica y el alcance de algunos descubrimientos científicos que han revolucionado categorías aparentemente inexorables de la mente humana. Carlos Blanco (Madrid, 1986) es doctor en filosofía, doctor en teología y licenciado en química. Entre 2009 y 2011 fue Visiting Fellow en el “Comité para el Estudio de la Religión” de Harvard, becado por la Fundación Caja Madrid. Ha publicado diversos libros, como Filosofía, Teología y el Sentido de la Historia (Madrid 2011), Philosophy and Salvation (2012), Conciencia y Mismidad (2013) y El Pensamiento de la Apocalíptica Judía (2013). Actualmente es profesor de filosofía en la Universidad Pontificia Comillas (Madrid).
