Historical Dictionary of Human Rights (Historical Dictionaries of Religions, Philosophies, and Movements Series) Jacques Fomerand
If the sheer number of references to human rights in media headlines or government statements is of any guidance, human rights concerns now appear virtually at the center of the framework of the norms, principles, and obligations that shape relations within the international community both among and within states. That political journey began, perhaps arbitrarily, on 10 December, 1948, when the United Nations General Assembly (UN-GA) embraced and proclaimed the Universal Declaration of Human Rights (UDHR), a ringing endorsement and advocacy of the notion that regardless of race, religion or nationality, all men and women, everywhere in the world are entitled to the human rights and fundamental freedoms simply because they are human.

The *Historical Dictionary of Human Rights* covers the history of the Human Rights movement through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has more than 1000 cross-referenced entries on terminology, conventions, treaties, intergovernmental organizations in the United Nations family or regional bodies, and the constantly expanding universe of non-governmental organizations, as well as some of the pioneers and defenders. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Human Rights movement.
