Hydraulic Design of Highway Culverts (Third edition). Hydraulic Design Series Number 5. FHWA-HIF-12-026 Federal Highway Administration, U.S. Department of Transportation
Full color, richly illustrated book. .The purpose of this publication is to provide information for the planning and hydraulic design of culverts. Chapter 2 provides a summary of design considerations including hydrology, site data and site assessments. Chapter 3 provides detailed information on the hydraulic design of the barrel (size, shape, material) and the inlet configuration (pipe end section, headwalls, wingwalls, bevels, and tapers). Chapter 4 provides an overview of aquatic organism passage (AOP) design concepts. A wide range of assorted design topics including bends, junctions, erosion, sedimentation, site modifications, structural considerations, broken back culverts, storage routing, and failure modes is summarized in Chapter 5. Finally, Chapter 6 discusses culvert repair and rehabilitation.
