The International Marine Book of Sailing

William Robinson

The International Marine Book of Sailing William Robinson

Here's the book that can get you sailing in an afternoon and keep you sailing better through a lifetime on the water

This is the first sailing book that follows a sailor's ideal learning curve. Rather than tell you all about sail trim or anchoring in a single chapter, Robby Robinson tells you what you need to know when you want to know it. From the absolute basics to the most advanced techniques, the *International Marine Book of Sailing* is highly accessible--and informative--at every level.

- More than 500 pages and 1,000 color photos and illustrations.
- Covers everything from high-performance and Olympic-class sailing dinghies to coastal and offshore cruising sailboats. No matter your age or the kind of sailing you'd most like to do, this book will work for you.
- The easy-flowing instructional text is augmented by sidebar features giving alternative approaches, definitions of terms, and boat-to-boat variations--a uniquely effective how-to combination.
- Includes contributions from Nigel Calder (*Boatowner's Mechanical and Electrical Manual*), Beth Leonard (*The Voyager's Handbook*), Robert Perry (*Yacht Design According to Perry*), Bob Sweet (*The Weekend Navigator*), Charlie Wing (*How Boat Things Work*), and other top sailing writers.
- Renders sailing and seamanship more transparent and accessible than ever before.
- The ideal book for self-teaching.

From reader reviews:

Harold Froelich:

Book is to be different for each and every grade. Book for children until adult are different content. We all know that that book is very important for all of us. The book The International Marine Book of Sailing was making you to know about other understanding and of course you can take more information. It is rather advantages for you. The book The International Marine Book of Sailing is not only giving you much more new information but also being your friend when you sense bored. You can spend your spend time to read your book. Try to make relationship while using book The International Marine Book of Sailing. You never truly feel lose out for everything if you read some books.

Bobby Gonsalves:

Why? Because this The International Marine Book of Sailing is an unordinary book that the inside of the book waiting for you to snap the item but latter it will shock you with the secret the idea inside. Reading this book adjacent to it was fantastic author who all write the book in such amazing way makes the content on the inside easier to understand, entertaining means but still convey the meaning fully. So , it is good for you for not hesitating having this ever again or you going to regret it. This book will give you a lot of positive aspects than the other book possess such as help improving your skill and your critical thinking means. So , still want to delay having that book? If I were being you I will go to the reserve store hurriedly.

Robert Lindsey:

The book untitled The International Marine Book of Sailing contain a lot of information on that. The writer explains her idea with easy technique. The language is very straightforward all the people, so do definitely not worry, you can easy to read the idea. The book was published by famous author. The author gives you in the new period of literary works. It is possible to read this book because you can keep reading your smart phone, or device, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can wide open their official web-site as well as order it. Have a nice examine.

Myrta Bundy:

Do you like reading a guide? Confuse to looking for your chosen book? Or your book ended up being rare? Why so many issue for the book? But any kind of people feel that they enjoy intended for reading. Some people likes examining, not only science book and also novel and The International Marine Book of Sailing or even others sources were given know-how for you. After you know how the truly amazing a book, you feel need to read more and more. Science e-book was created for teacher or perhaps students especially. Those textbooks are helping them to bring their knowledge. In some other case, beside science e-book, any other book likes The International Marine Book of Sailing to make your spare time considerably more colorful. Many types of book like this.
