Mathematical Recreations: Second Revised Edition (Dover Recreational Math)

Maurice Kraitchik

Mathematical Recreations: Second Revised Edition (Dover Recreational Math) Maurice Kraitchik
Ranging from ancient Greek and Roman problems to the most modern applications of special mathematical techniques for amusement, this popular volume contains material to delight both beginners and advanced mathematicians. Its 250 lively puzzles, problems, situations, and demonstrations of recreational mathematics feature full solutions and analyses.
Fifty-seven highly unusual historic problems are derived from ancient Greek, medieval European, Arabic, and Hindu sources. Other problems are based on "mathematics without numbers," geometry, topology, the calendar, arithmetic, and the mathematics of chess moves. Fifty pages comprise numerical pastimes built out of figurate numbers, Mersenne numbers, Fermat numbers, cyclic numbers, automorphic numbers, and prime numbers; probability problems are also fully analyzed. More than forty pages are devoted to magic squares, and the concluding portion of the book presents more than twenty-five new positional and permutational games of permanent value. A discussion of fairy chess is followed by rules and procedural information on latruncles, go, reversi, jinx, ruma, lasca, tricolor, four-story towers, tetrachrome, and other games.
More than a collection of wonderful puzzles, this volume offers a thorough, rigorous, and entertaining sampler of recreational mathematics, highlighted by numerous insights into specialized fields.

From reader reviews:

Gregory Jager:

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each e-book has different aim or goal; it means that publication has different type. Some people feel enjoy to spend their the perfect time to read a book. They can be reading whatever they take because their hobby is definitely reading a book. Consider the person who don't like looking at a book? Sometime, man feel need book whenever they found difficult problem or exercise. Well, probably you will want this Mathematical Recreations: Second Revised Edition (Dover Recreational Math).

Michele Reynolds:

Have you spare time for any day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity intended for spend your time. Any person spent their particular spare time to take a wander, shopping, or went to typically the Mall. How about open or perhaps read a book called Mathematical Recreations: Second Revised Edition (Dover Recreational Math)? Maybe it is to be best activity for you. You already know beside you can spend your time with the favorite's book, you can cleverer than before. Do you agree with it is opinion or you have additional opinion?

Christina Fitts:

This Mathematical Recreations: Second Revised Edition (Dover Recreational Math) is great book for you because the content and that is full of information for you who all always deal with world and possess to make decision every minute. That book reveal it information accurately using great coordinate word or we can state no rambling sentences inside it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only gives you straight forward sentences but hard core information with beautiful delivering sentences. Having Mathematical Recreations: Second Revised Edition (Dover Recreational Math) in your hand like getting the world in your arm, data in it is not ridiculous 1. We can say that no guide that offer you world inside ten or fifteen second right but this e-book already do that. So , this really is good reading book. Hello Mr. and Mrs. busy do you still doubt this?

Sharon Lopez:

Reading a publication make you to get more knowledge from the jawhorse. You can take knowledge and information originating from a book. Book is prepared or printed or outlined from each source that filled update of news. Within this modern era like today, many ways to get information are available for anyone. From media social just like newspaper, magazines, science e-book, encyclopedia, reference book, new and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just in search of the Mathematical Recreations: Second Revised Edition (Dover Recreational Math) when you desired it?
