About $49.95 (US)|$52.50 (CAN)
ISBN-13: 978-0-8036-2145-9

Word Building—the foundation for success begins with Barbara Gylys and the Body Systems Approach.

The med term approaches and how they differ…

- Most med terms books teach by memorization—the *whole word* approach.
  - Memorize vocabulary and then try to recognize word patterns.

- Gylys uses the word-buildingapproach.
  - First learn the patterns of medical words before you learn the vocabulary.

- Gylys takes a common sense approach, by introducing word elements first:
  - Roots
  - Combining forms
  - Suffixes
  - Prefixes
- She covers them one by one, breaking down each word part.
- Common English word elements are presented…
  - This familiarity makes it easier for students to learn and break apart and build words.
  - Students can use their understanding of word parts to decipher vocabulary.
- Mnemonic devices, interactive activities (in the book and on the CD) make word-building fun and this in turn increases retention…*no more tedious memorization, students learn by breaking down and rebuilding words!*

"From my years of teaching, I found it was much easier for students to learn word parts directly associated with a body system (or specialty area), and this has been the key to my approach in all of my texts and software products."
—Barbara A. Gylys

Building a better med term book with amazing features…

- ***Even Better!*** Easier reading level—geared toward all learners.
- ***New!*** Body Systems Connections table:
