Sentimentalism, Ethics and the Culture of Feeling M. Bell
Sentimentalism, Ethics and the Culture of Feeling defends feeling against customary distrust or condescension by showing that the affective turn of the eighteenth-century cult of sentiment, despite its sometimes surreal manifestations, has led to a positive culture of feeling. The very reaction against sentimentalism has taught us to identity sentimentality. Fiction, moreover, remains a principal means not just of discriminating quality of feeling but of appreciating its essentially imaginative nature.
