A Brief Biography of Martin Van Buren, Eighth President of the United States (Annotated) W. F. Zimmerman
This easy-to-understand guide to the life and career of Martin Van Buren (equivalent in length to a physical book of approximately 16 pages) was written especially for the esteemed multi-volume “World Book: Organized Knowledge in Story and Picture” (1919 edition).

Includes supplemental material:

• About Martin Van Buren in Brief
• About the Canadian Rebellion of 1837

Sample passage:
At the very outset of his administration Van Buren was confronted by the disastrous panic of 1837. This was due, in some degree, to Jackson’s financial policy. When Jackson, in 1833, removed the government’s funds from the Bank of the United States, he ordered them deposited in certain “pet banks,” which used them unwisely to stimulate trade and speculation. The panic, however much it may have been immediately due to these actions, had deeper causes. It was due to overspeculation in land, excessive expenditures for public improvements, a failure of the wheat crop in the preceding year, “wildcat” banking, and finally to a financial crisis in England. It was the first crisis of its kind in the United States, and its full force was felt by the Van Buren administration. Necessary foodstuffs and other commodities went to unheard-of high prices; commercial firms, brokers, and banks failed by scores; great distress was prevalent among the poor; and specie payments [payments in coins] were suspended.
