In “Trading in the Shadow of the Smart Money” Gavin discusses why market manipulation is actually a good thing for traders and investors who can read the chart correctly based on universal laws. All markets work because they are governed by three universal laws, which are the law of supply and demand, the law of cause and effect and the law of effort versus result. To make money in life there is a fourth and very important law, the law of attraction, and for the first time in any book on trading that we are aware of Gavin unlocks the key to success in trading and investing in the markets: BELIEF in your human ability to make money and in your system to read charts. The book gives actual trade set ups taught to Gavin by Tom Williams and gives over 50 annotated color charts explaining the VSA principles bar by bar.
