eBay Business Expert: How to Grow your Business with the Power of Email Marketing, Social Media, and Crowdfunding with Kickstarter (Volume 3) Nick Vulich
Are you anxious to grow your eBay business?
eBay Business Expert is going to help you take your eBay selling to an all new level.
Section 1 looks at how to pick items that really sell on eBay. When you use the advanced search tool and these simple tips and tricks I teach you, you don't have to depend on anyone else's list to find out what's hot.
Section 2 examines email marketing and how you can use it to take your online business to an all new level. I also included an extended interview with Rob Cubbon, an expert in email marketing to give you his take on how to approach the subject.
Section 3 is a no holds barred look at social media marketing - Facebook, Twitter, Pinterest, and more. Selling today is more about connecting with your buyers, and building lasting relationships. The days of one-and-done selling are over. Start connecting with your buyers, and watch your business grow. And, to give you that extra boost, I interviewed two sellers who are stretching the barrier with social media marketing - Lauren Lerner and Cameron Loughlin.
Section 4 discusses funding your business with Kickstarter. Crowdfunding is an all new way to fund your business, but if you aren't familiar with how it works there are a few things you need to know. The first is a Kickstarter campaign can't be used to fund an entire business. It's there to fund projects, so you need to learn how to develop your business through a series of projects. Hence, just like the old potato chip commercial, one Kickstarter is not going to be enough. Of course, I've included interviews with two people who've run Kickstarters - Hanson Grant and Brandon Kelly.
And, by-the-way I saved the best part for last. **eBay Business Expert** is available in paperback now, and will be available soon as an audio book.
