Frozen In Time: The Fate of the Franklin Expedition Owen Beattie, John Geiger
This new edition of Frozen in Time expands on the history of early British Arctic exploration and places the tragically fated Franklin expedition in the context of other expeditions of the era, including those commanded by George Back and James Clark Ross, which also suffered unaccountable and devastating losses. The authors' research reveals an unexpected - and ironic - cause for the mystery illness that befell the explorers. Never-before-seen photographs from the exhumations, updated research results, additional forensic corroboration, and a new introduction by Margaret Atwood complete this fascinating account.
